

Web-based Real-Time Weather Data from around the Western Cape

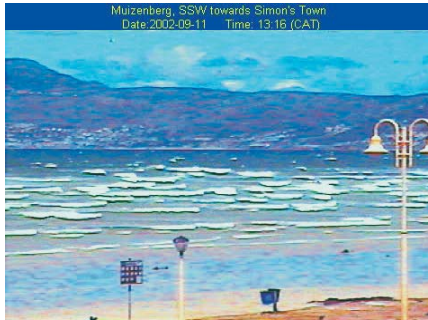

C²I² Systems has now launched its web-based Real-Time Weather Watch offering a range of real-time and online weather data services to outdoor enthusiasts and professionals. Surfers, kitesurfers, boardsailors, fishermen, divers, paragliders and others can make use of the online data services to save irreplaceable time, vehicle expenses and missed opportunities.

An Internet subscription provides access to **Weather Data** (Wind Speed, Wind Direction, Barometric Pressure, Humidity and Air Temperature), **Weather Images, Video Clips, Graphs, Data Tables, Sea Conditions** and **Tide Tables**.
